For university entrance worldwide the crucial A Level grades are A and B.

In the past decade our results have very significantly exceeded the national averages for these high grades.

Given that the mother tongue for many of our students is not English these results are all more pleasing and are testament to our small classes, experienced teachers, motivated pupils and supportive families.

University Destinations

As a result of the excellent A Level grades outlined above our students are normally accepted by their first choice university.

In recent years our students have enrolled in universities in the following countries - Australia, Canada, France, Japan, Kazakstan, Netherlands, South Korea, Spain (including several in Barcelona), Switzerland, UAE and USA.

However, as we are a British curriculum school, it is not surprising that some 75% of our students decide to choose prestigious UK universities after graduating from Kensington.
